Jesus promises His disciples the fulness of life (John 10,10). We will reflect on the levels of life which human beings experience : physical and animal life, moral and social life, spiritual and supernatural life. The grace of God brings human life to perfection, supremely exemplified in the life and mission of Mary, whose birthday we celebrate during this retreat. She is « our life, our sweetness and our hope » In her company we seek to be strengthened on all the levels of our life, particularly our life of faith, hope and love.
